| SPECIFICATIONS                   |                |       | L5040  |  |  |
|----------------------------------|----------------|-------|--|--|--|
| ENGINE                           |                |       | Diesel, 4-cylinder, water cooled, 8-valve, turbocharged, mechanical indirect injection |  |  |
| Power output                     |                | KM    | 50.86  |  |  |
| Total displacemen                | t              | cm3   | 2434   |  |  |
| PTO power                        |                | KM    | 44.6   |  |  |
| Max torque                       |                | Nm    | 164,2 (1400-1800)  |  |  |
| Fuel tank capacity               | ,              | L     | 54   |  |  |
| TRANSMISSION                     |                |       |  |  |  |
| Transmission type                |                |       | Mechanically engaged 4x4   |  |  |
| Total number of speeds           |                |       | F16/R16  |  |  |
| Max speed / min.                 |                | km/h  | 30,3 / 0,2 (depending on tire size)  |  |  |
| Gearbox                          |                |       | 4 speed  |  |  |
| Reduction box                    |                |       | Four speed, creep gear w standardzie   |  |  |
| Shuttle                          |                |       | Mechanical, quick change of driving directon with a lever on a steering colum          |  |  |
| Main clutch                      |                |       | Dry, one stage   |  |  |
| Brakes                           |                |       | Hydraulic wet, disc brakes   |  |  |
| Differential lock (l             | Front / Rear)  |       | N/A / mechanical differential lock   |  |  |
| РТО                              |                |       |  |  |  |
| PTO speeds                       |                |       | 540 / 540E - selected with an external lever   |  |  |
| PTO clutch                       |                |       | Independent, multidisc, wet, hydraulically operated                                    |  |  |
| HYDRAULICS                       |                |       |  |  |  |
| Hydraulic pump capacity L/min    |                | L/min | 35.6   |  |  |
| 3-point linkage category         |                |       | T.   |  |  |
| 3-point linkage control          |                |       | Mechanical: position control   |  |  |
| Lifting capacity kg              |                | kg    | 1750   |  |  |
| External hydraulic               | outlets (pairs | s)    | 2  |  |  |
| DIMENSIONS AN                    | ID WEIGHT      |       |  |  |  |
| Total length / height / width    |                | mm    | 3245 / 2550 (ROPS) / 1470 (min. thread)  |  |  |
| Wheelbase                        |                | mm    | 1915   |  |  |
| Thread                           | Front          | mm    | 1135   |  |  |
|                                  | Rear           | mm    | 1125, 1225, 1325   |  |  |
| Standard tire size               |                |       | Front: 9,5-16; Rear:13,6-28  |  |  |
| Turning radius m                 |                | m     | 3,2 (with braking)   |  |  |
| Tractor weight in standard spec. |                | kg    | 1730   |  |  |

## FURTHER FURTHER STANDARD FEATURES

Power steering, two external hydraulic sections, drawbar
